Product Code:

**8402500**

OKTO Swift

### Design Features:

- New design sliding table constructed of 3mm stainless steel
- Sliding table secured with hinges, capable of being lifted for thorough cleaning and access to hard to reach spaces
- Increased cutting space on the working table to accommodate larger cuts
- Direct drive motor- 1.5kw 380v3-phase
- Tension yoke set for 112.5" blade for optimal performance and bearing protection
- Easy to maintain blade scrapers
- Bandsaw body constructed of high quality 2mm stainless steel

## Enhanced Safety Features:

- Brake switch is fitted on the side of the bandsaw for easy access during setup
- Safety switches located on upper and lower doors
- Operator friendly with enhanced safety features
- Hygienic design for optimal cleanliness and ease of cleaning
- Cutting guide (optional extra)
- **3 Phase 1,5kw 380V 3-Phase - very powerful direct drive motor**
- **Recommended Blade for the Swift – 112.5**
- **Full 2mm thick stainless steel body**
- **Larger working table**

Product Code:

**8630044**

OKTO direct drive  
52 Mincer

- 1650mm Length
- 745mm Width
- 950mm High
- 380 Volts
- 3 Phase 12amps
- 52mm Head
- 236Rpm Cutting Speed
- Bearings 32308 and 6011
- 55-90-10 Seals
- 5.5 Kw 4pole Motor
- 236 Rpm Output Speed
- Gear Box Driven 6.2:1 - No sprocket or chain
- **1 Set of knife and plate included in the price.**

**Product Code: 7806256 52 4.5mm Plate,  
7806221 Knife 52**

Product Code:

**8692374**

OKTO direct drive  
200LT Paddle blender

- 3 Phase
- 1000mm Height
- 620mm Depth
- 1100mm Length
- 120KG Loading Capacity
- Forward /Reverse
- Standard 1ph 220V -1.1kw, 2mm 304 grade stainless steel , 40 mm shaft on spade peddle with 40x6mm upright, lid safety [limit switch], motor overloading protection with 9amp 380v contactor, Gearbox 60:1
- All Food Contact Points Are 304 Stainless Steel.
- Motor Cover 430 Stainless Steel

# AV HENKOVAC

QUALITY VACUUM SYSTEMS

Product Code:

**8646027**

Henkovac D1 Double chamber vacuum machine

- 3 Phase
- 4 x 620 Seal length
- 620 x 520 x 230 Chamber size
- 400-3-50Hz Standard voltage
- 4,4kw Power consumption
- 63-100m<sup>3</sup> Pump capacity
- 20-40 sec Cycle time

Product Code:

**8646022**

Henkovac T4 Tabletop vacuum machine

- Single Phase
- 420 Seal length
- 320 x 420 Chamber size
- 230-1-50Hz Standard voltage
- 0,4/0,5kw Power consumption

# **COUNTER LOADSHEDDING WITH THE NEW ERA IN EQUIPMENT**

In today's difficult economic times, we need support when the power is out. Business needs to continue and cashflow needs to stay constant.

Introducing the new Single-phase options from Crown National. Now you can keep up with the workload, while load-shedding continues. Less power needed with the same amount of output.

Give your business the boost it needs with the All-New Single-Phase range and see how easy countering loadshedding really is.

Product Code:

**8630045**

OKTO single phase  
direct drive bandsaw

**Electrical Load: Single Phase 1.5Kw**  
**Supply: 230/240 Volts**  
**Motor: 1.5kW/ 1450 RPM 900 RPM Wheel**  
**Starter: 1ph Dol Starter 230v 2.5-4 Amp**  
**Blade: 2870 x 15.875 x 2 Teeth Per cm**  
**(112.5" x 5/8" x 5 T.P.I.)**

Product Code:

**8692377**

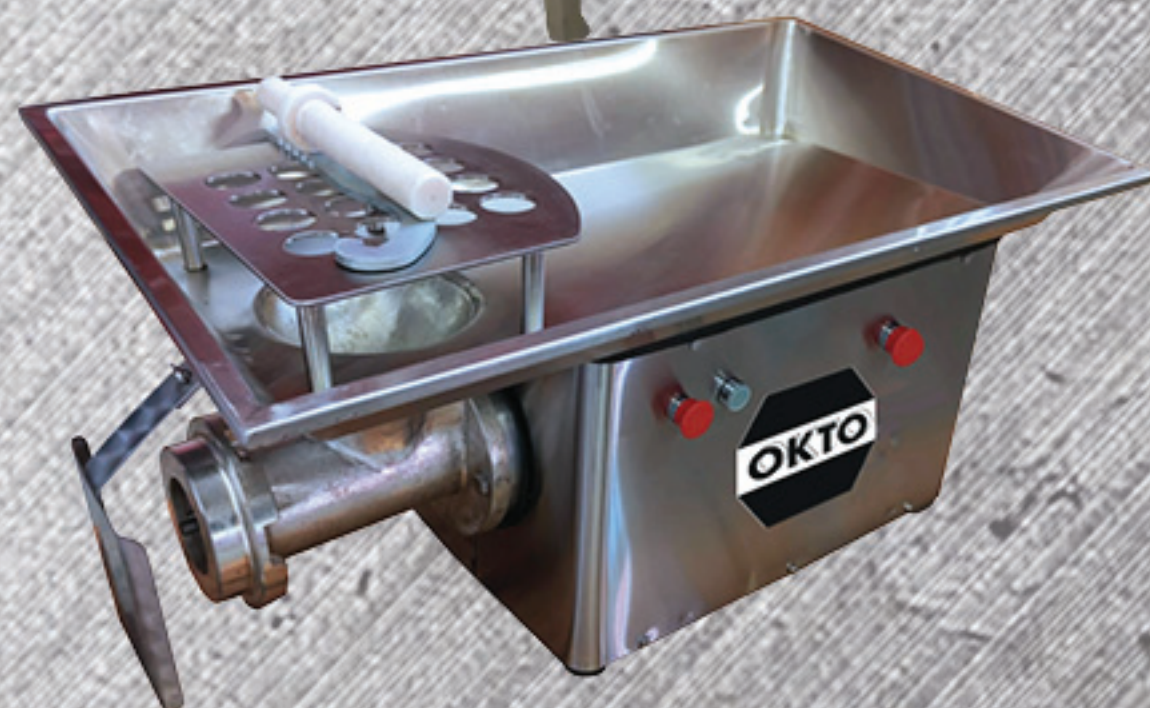

OKTO single phase  
200lt, Paddle blender

Product Code:

**7806678**

OKTO single phase  
direct drive mincer

- Motor size 1.5kw, 220 volt
- Gearbox driven, 228 Output rpm
- Table top (stand optional)
- 850L x 400w x 350h
- Mild steel powder coated base
- Stainless steel cover & top tray
- Cast iron barrel, lock nut & worm

# **THE NEXT GENERATION OF RISCO VACUUMING HAS ARRIVED**

## **Introducing the all-round vacuum filler for small scale food-processors**

The Risco RS 110 continuous vacuum filler is a compact and extremely versatile machine. This model processes standard sausage products, as well a variety of other food products.

The RS 110 has all the characteristics of the larger Risco models destined for small-scale producers, but it is ideally suited for small to medium producers of top-quality products. The versatility of this filler permits easy production changeover in the same working day. Moreover, the new multifunction

Human-Machine Interface with icons, where you can store up to 100 different programs, allows a large selection of the filling parameters, and a rapid programming or recall during the production time.

It is also possible to match the RS 110 to a wide range of Risco accessories (twist-linker, clipping machine, depositing systems and more) to meet any present or future production needs.

## Main Features:

- Maximum production flexibility
- Gentle and accurate filling process
- High production performance
- Great variety of accessories available
- Intuitive control-system programming
- Low maintenance costs
- Minimum overall dimensions

Partner in your success

## Technical Features:

- Production: 2.800 Kg/h
- Portioning speed: 400 pcs/min
- Filling pressure: 35 bar max
- Installed power: 5 kW
- Hopper capacity: 70 – 165 litres

# WHAT WE DO TO **HELP** OUR CUSTOMERS SELL THEIR PRODUCTS:

We know what it takes to build equipment brands. We have done it since 1952 to ensure that you only work with quality, reliability & have the peace of mind that your end product on the counter looks & taste the best. We also ensure that we put the same time and resources into supporting, promoting, and savoring only the very best of our country. We are extremely proud to sponsor teams & programs that epitomize true South African gees.

DHL Stormers, Vodacom Blue Bulls, Tafel Lager Griquas Rugby, Six Gun Grill Garden Route Badgers Cricket, Six Gun Grill Trans Agulhas, Six Gun King of the Waves, The Fair Cape Super Schools Netball Powered by Six Gun Grill, Voetspore on SABC 2, Toks & Tjops on Kyknet.
