LOUIS, GONE BUT  
NOT FORGOTTEN

## Tribute to Louis De Hahn

It is with great sadness that we say goodbye to Louis De Hahn who sadly passed away on 28 December 2021. He will forever be missed by his Crown family. Louis was one of our drivers for over 25 years. We could always count on him to get the job done right. Whenever we had difficult clients or needed something to be done properly, Louis was our man! He always put the customer first even if that would mean him starting his journey at 4am. When it came to nominating candidates for the Driver of the Year, he was always the likely candidate to be put forward. Louis won two Driver of the Year awards, and we could not have been prouder. Louis was always the first person to arrive at work. He would wait at the gate to be let in so that he could start with his deliveries because he never wanted to keep customers waiting. He always went the extra mile - no request was too big or too small - and we will always respect and cherish what he brought to the Crown National family.

He was a quiet and honest person, his colleagues trusted him like a father. When you speak to his colleagues about him, they all say the same thing: Louis had an incredible heart for people. He was always the one greeting you with a smile and having catch ups in the mornings with a cup of coffee before he hit the road. He was genuine, he made connections with those around him, and he was trustworthy. When times were tough, he was the one that his colleagues would go to for wisdom. When they were down, they'd go to him to be cheered up.

In our thoughts and memories is where you will remain Louis. You are missed dearly.

WAS PROUD TO BE PART OF**

# *Astral* 2021

## **WORLD FOOD SAFETY DAY**

The 2021 Food Safety Campaign was a first for Astral and considering the improved staff morale, will not be the last.

The objective was to say thank you and give back to our employees while also further educating them about Food Safety – not only in their workplace but also at home, protecting the consumer and their own families against foodborne illnesses.

**While having fun, we learned 5 key points:**

- Always wash your hands before preparing food
- Ensure utensils and food contact surfaces are clean
- Separate raw poultry from cooked food and all other foods
- Keep chicken and perishable foods at the correct temperatures
- Always check the expiry date

Thank you for the contribution that Crown National made towards a memorable day. Employees were laughing, singing, dancing, eager to participate and excited to apply what they have learned. Even though we weren't able to see the smile behind the masks, the smile and appreciation was visible in their eyes and body language.

Employees were still chatting about the fun-packed activities and facts long after the event, testimony to its success. Mission accomplished. "Once again, thank you!" says Frans van Heerden and Louise Odendaal from Astral.

## What's cooking in the Kitchen

# *Pinkie's Secret Six Gun Marinade*

### INGREDIENTS

- 6 Lamb chops
- 1 Tablespoon crushed garlic
- ½ Tablespoon Chilli flakes
- 3 Tablespoon Six Gun Grill® Seasoning
- 1 Tablespoon soya sauce
- 25ml Meister Club BBQ sauce
- 1 Tablespoon Meister Club Peri Peri Sauce

### METHOD

Combine all ingredients into a bowl, then marinate lamb chops in Pinkie's Secret Six Gun Grill® Marinade for at least one hour. Braai or fry meat as you normally would. The result is tasty, tender and deliciousness, every time. For variation, you can also try Pinkie's Secret Six Gun Grill® Marinade on chicken or steak.

### TOPIC: First aid awareness in the workplace

When accidents occur, it is critical that procedures be followed to assist the injured individual as quickly as possible. Therefore, it is crucial to familiarise yourself with the SHE-DOC-01 Emergency Procedures which outline how emergencies are managed.

Keeping in line with SHE-DOC-05 Incident Reporting Procedure, all employees, visitors and contractors are responsible for reporting any incidents and injuries before the end of shift/day to their Supervisor, Manager or Site Representative in order for them to be addressed accordingly.

#### **There are appointed first aiders within the workplace and their role includes:**

- Being readily available during working hours/shift to administer first aid when required.
- Reporting any injuries to the Emergency Controllers.
- Ensuring that the first aid box/es remain stocked to meet all foreseeable incidents which may occur.
- Being familiar with the material safety data sheet (MSDS) for the particular substance/s in the workplace – with particular reference to the first aid measures that need to be applied in case of an emergency.

#### **Therefore, to allow prompt response in an emergency, be sure to know the following:**

- Where the first-aid kit is kept.
- Who your first aiders are.
- Where the phone (or other means of contact e.g. radio) is located in order to call for help.
- First aid equipment and supplies should be stored where they can be reached quickly and easily in the event of an accident.
- These supplies should be inspected frequently by first aiders, making sure they are kept in sanitary and usable condition and re-stocked after use. Inspection to be done according to SHE-FORM-02 First Aid Box Checklist.
- All first aid boxes should include a first aid treatment form, SHE-FORM-44. This form can be found on sharepoint on the link below:
